Convincing Features for Wrap-Around Labelling

HM

HotMelt

HotMatic

- reliable hot-glue-aggregates for initial and final gluing
- exchangeable bottle plate
- **only from us: with variable bottle rotation!**
- tooth belt drive for bottle table with **VarioDrive**-system

- glue roller for initial gluing
- short changeover times for different sets
- glue thickness adjustable by millimeter screw
- gluing process suitable for plastic containers and cans

- label container contains a quick change device, adjustable in three dimensions
- container for about 7,000 labels
- suitable for paper and foil labelling

- command display at maintenance side of machine
- temperature displays with time switch and overnight glue heating
- efficient and renowned German assemblies, e.g.

- o Siemens S7
- o maintenance panel OP 7
- o Klöckner Moeller
- o Bosch
- o SEW

bottle table		label length		label height		bottle diameter		capacity
diameter	bottle plates	min.	max.	min.	max.	max.	min.	BpH
480	8	165	400	40	340	60	130	max. 7.000
600	10	165	400	40	340	60	130	max. 10.000
720	15	165	400	40	340	60	130	max. 25.000
